ACKNOWLEDGEMENT	
<p>I understand that in order to use any lots that are no longer licensed, the lot will be subject to redevelopment. Redevelopment may include engineered drawings, local permits and inspections and additional plan review fees. I affirm that all lots that have been removed from this license will no longer be used for home placement. All lots removed from this license must have utility access to the lot removed as well. I understand each lot will be inspected and verified that utility access has been removed.</p>
